

WHEREVER GREAT SPORTS CARS GATHER, CORVETTE IS FRONT AND CENTER.

Corvette coupe and convertible have carved a permanent niche into the global automotive landscape. Both models boast a standard 430-hp LS3 V8, six-speed manual transmission and launch control. Inspired by the iconic Sting Ray racers of the 1960s, the Grand Sport coupe and convertible offer a stunning combination of all-out performance and efficiency. The Z06, codeveloped with the Le Mans-winning C6.R race car, features an outstanding power-to-weight ratio — not to mention a 505-hp 7.0L V8. The new Z06 Carbon Limited Edition (very limited availability) combines the naturally aspirated Z06 engine with performance features of the ZR1. And the 638-hp ZR1 (very limited availability) returns for 2011 as the ultimate Corvette...and then some.
